

STATEMENT FROM INNOVA JC ALUMNI

We understand that the decision to merge has not been an easy one to make.

At 12 years old, the College is just on its way to forging an identity of our own, our pioneering graduates just beginning to build illustrious careers of their own. However, we accept that difficult as it may be, it is a timely and necessary decision to take in anticipation of further reductions in enrolment nationally.

We hope the brief existence of this Junior College, that has brought so many of us happy memories, will not get lost in the annals of history, and wish the college the very best for the future.

Ad Astra,

Innova JC Alumni
